

# The World Around Us

- Developing natural curiosity
- Observe and explore properties of material e.g. Sand, water etc.
- Use their senses – explore texture, compare
- Becoming aware of how materials behave e.g. Malleable materials
- Observe and respect living things
- Make models – assemble, reassemble and build
- Put things together in a variety of ways – sticking, cutting, folding
- Children- observing, exploring, investigating, selecting materials, equipment
- Cutting, sticking, folding, pouring, building – using variety of materials
- Care for and respect living things, recognising parts of the body
- Identify familiar sounds
- Talk about observation and make simple predictions
- Adult role – questioning, commenting, offering additional material
