

WE ARE AN **ECO** FRIENDLY SCHOOL

SCHOOL GROUNDS:

Help us to encourage children from the beginning to take responsibility to care for their own environment. To be respectful of the natural environment.

REDUCE LITTER:

Encourage your child to pick up litter and put it in the correct recycling bins placed both inside and outside the school building. Adults need to set the example at all times.

SAVE WATER:

Encourage your child to always turn off water taps and save water. To use water butts to water plants in the outdoor environment.

MINIMISE WASTE:

We recycle all of the plastic, paper, cardboard, food waste, cloth and glass within the school environment. Encourage your child to save scrap paper created through work in school and recycle it into the appropriate bins when finished with it.

HEALTHY LIFESTYLES:

Encourage children to eat fresh fruit and vegetables daily. Children are involved in planting and harvesting in school, encourage them to discuss this at home. Consider developing a small vegetable patch for your child to continue this work at home.

TRANSPORT:

We will promote road safety awareness in each season, through regular visits from the community police and road safety officers. When possible walk to school with your child reinforcing the main points of safety.

SUPERHERO “MICHAEL RECYCLE”

Who is this character? Only your child will know!
